Lifan Energy Storm ESI-7000iER Electronically Fuel Injected Digital Inverter Generator

Electronic Fuel Injection delivers 7000 surge watts and 6500 running watts of digitally controlled pure sine wave power. Will easily run your 15000 BTU AC unit and all other needs. E.F.I. allows for exceptionally low noise and emissions while delivering nearly 13 hours of run time on a single tank of gas. E.F.I. also minimizes the effects of altitude and heat, making it the most versatile and reliable Digital Inverter Generator on the market. Remote start from up to 75' away. 4 Caster w/Brake wheel kit for ease of handling. Digital display with self-contained diagnostic system.

About LIFAN Power USA Products

Lifan Power USA is proud to offer a full line of quality residential portable generators with our Energy Storm program. These quality generators are a perfect fit for emergencies, homeowners, special events, sporting events, tailgating parties, or weddings. Lifan Power USA prides itself in standing behind all Lifan products with a industry leading 1 year Commercial and 3 year residential use limited warranty and offers the highest level of service and support with a complete parts and service network. Features include an industrial grade overhead valve gasoline engine, automatic voltage regular, low oil engine shutdown protection. All of the Energy Storm portable generators are also EPA approved. This lightweight, easy-to-transport generator is your perfect utility power source.
